DEPARTMENT OF ZOOLOGY

CERTIFICATE COURSE

AQUACUISINE

REPORT:

The course, "**Aqua cuisine**" was started on **03rd Dec, 2018 till 14th Dec, 2018**. Fishes and prawns being in good demand at National and International Market, we need to know the ways by which it can be preserved and bought up into market. It was indeed a great experience conducting the course related to curriculum and as well as a hobby of cooking. The course included methods of preservation, cutting and recipes of fishes and prawns also highlighting its nutritional information. The course included lectures and practical. The last day of the course included exhibition of the dishes that were introduced during the course. The objective of the course was to well verse students with nutritional information and teach them commercial techniques to preserve fishes and prawns in cooked or raw method. The students from T.Y.BSc Zoology had shown enthusiasm including F.Y.BSc and S.Y.BSc . We assure that the knowledge gained will definitely bring light in their future when dealing with any sea food.

In-Charge

COURSE DESCRIPTION:

AQUACUISINE, is one of the most important and embracing fields of biology of commercial aquatic organisms like fish, Prawn, seaweed, pearl oysters, hatchery technology, culture practices, disease management, food and feeding habits, feed manufacturing, marketing, economics etc, is very much market oriented course. As Mumbai is one of the coastal regions, it provides greater employment opportunities to the community.

COURSE OBJECTIVES:

- To introduce students to aqua treasures.
- To provide information on the health and nutritional benefits of sea foods.
- To impart basic techniques of sea food preparation.
- Recipe demonstration
- To strengthen the theoretical knowledge with an activity related to the content taught in the class room.
- The aesthetic development, character building, spiritual growth, physical growth, moral values, creativity of the student.

COURSE OUTCOME:

After the completion of the course candidate will have following ability;

- The candidate has a significant knowledge of factors that influence the quality and shelf-life of seafood
- The candidate has in-depth knowledge of the cooling and freezing of seafood including new and established technology used for super chilling and freezing of seafood.
- The candidate can explain how the quality and shelf-life of seafood products are affected by the quality of the raw material, the cold chain, the choice of technology and processing conditions.
- The candidate knows up-to-date technologies that are used in seafood handling and processing.
